Primers for Module 3

By now, **python** has become your best friend. It's time to add **c++** to this arsenal. Follow the below github link for a brief introduction to cpp. We would strongly recommend to go through the below

https://github.com/mlab-upenn/ESE360_TinyML/blob/main/Helpers/CppForPythonProgrammers.md

https://google.github.io/styleguide/cppguide.html

Additional resources for c++:
